CAMPUS FACILITIES & LEADERSHIP

The Atlanta Metro campus in Decatur, GA is a branch campus of Tulsa Welding School in Phoenix, AZ.

EVALUATION OF CREDIT FOR PREVIOUS EDUCATION AND TRAINING FOR VETERANS BENEFITS

The following is a revision to page 49 of the School Catalog.

In accordance with U.S. Department of Veterans Affairs (VA) requirements, the institution maintains a written policy for evaluating prior education, training, and experience for students using VA education benefits. The purpose of this evaluation is to determine whether applicable prior credit can be awarded and whether a student's program length should be shortened accordingly.

Students are not required to provide Joint Services Transcripts (JSTs), military transcripts, or transcripts from prior postsecondary institutions solely for purposes of receiving VA education benefits. A student's application, résumé, military documentation, transcripts, or other records may be used to document previous education and training.

If a student submits transcripts or other documentation for transfer credit or prior credit consideration, the institution will evaluate the documentation in accordance with its established prior credit policy. Applicable credit will be awarded when appropriate, and the student's program will be adjusted, including shortening the program length when required.

Students who choose not to provide prior transcripts or other documentation may still be certified for VA education benefits, provided all other eligibility and certification requirements are met.
